A Message to Our Friends

Despite Hurricanes Carol in August, Edna in September and a hail storm in July, 1954, (which we shall not name although we could), Seabrook Nursery this year has an expanded listing of really top quality bulbs. We are proud of the clean fine bulbs we will be able to ship to our friends. These bulbs, growing in your garden, will make you the envy of all who see them.

Once more Glad Morgan and the other friendly folks here at Seabrook Nursery hope you can pay our nursery a visit next summer to see the hundreds of thousands of gladiolus in full bloom. It is truly a fairyland of color. Come and see new and unnamed varieties. At that time you can select by color the gladiolus you would like to see in your own garden.

Seabrook Nursery is on the main line of vacation travel on U. S. Route 1, about one mile north of the Massachusetts state line.

Again this year we have some wonderful values in collections and mixtures at low prices. This year's catalog lists many popular favorites as well as varieties just introduced. We would like to print a catalog in full color so that you can get an idea of the beauty of these gladiolus. Instead, this catalog is simple so that we can give our customers the best value in top quality bulbs.

Cordially yours,

Seabrook Nursery Folks

GUARANTEE

We guarantee to do everything in our power to satisfy our customers. We guarantee our bulbs to be clean, free from disease and insects. Claims and complaints in regard to bulbs should be sent to us soon after receiving the bulbs. If blooms are not true to name, of course, you can make claims for that only at time of blooming. If this should occur we will make every effort to reach a satisfactory settlement with you, our customer.

Our business has been built on satisfied customers and we want to continue to merit your satisfaction.

The bulbs you harvest, we are unable to guarantee. Unsatisfactory growing conditions or disease in your soil are beyond our control.

BULB SIZES — The retail list contains three sizes —

Large, 1¼ inch up

Medium, ¾ inch - 1¼ inch

Small, ⅜ inch - ¾ inch

Large size bulbs give the largest bloom. However, medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

UNLABELLED COLLECTIONS AT PREPAID PRICES

Long famous for the excellence of our mixtures, we are proud of the unlabeled assortments offered this year at truly amazing savings. All bulbs are clean and healthy, ready to give you fine flower spikes. All assortments are graded by size. If you want large bulbs, buy that size — 1¼ inches or larger; if medium bulbs are satisfactory, pay only for medium sized bulbs.
